American Engineering Testing, Inc (AET) congratulates Terry Swor, P.G. – President on receiving the American Council of Engineering Companies of Minnesota (ACEC/MN) Tom Roche Lifetime Achievement Award.

Saint Paul, Minnesota – The American Council of Engineering Companies of Minnesota (ACEC/MN) recently honored Terry Swor, P.G. with its prestigious Tom Roche Award. The special achievement award acknowledges individual contributions to the engineering profession, ACEC/MN and the community. Terry, president and one of the founders of American Engineering Testing, Inc. (AET), has more than 25 years of active participation in ACEC/MN including legislative, continuing education, professional practice and interdisciplinary cooperation. He is a licensed Professional Geologist in both Minnesota and Wisconsin. AET is an employee-owned consulting firm of 300 professionals and certified technicians with eighteen offices in Florida, Minnesota, South Dakota and Wisconsin.

ACEC/MN is the leading business practice and policy advocate for consulting engineering firms in Minnesota. Formed in 1949, ACEC/MN's 150 member firms, representing over 4,500 employees, provide services to all segments of society, including federal, state and local governments, private industry and the general public.
