Adolfson & Peterson Construction Hires MEP Coordinator

Minneapolis, MN – Aug. 22, 2008 – Adolfson & Peterson Construction welcomes Craig Sandeen as a project manager in mechanical, electrical and plumbing (MEP) coordination. Sandeen is responsible for coordinating and expediting all mechanical, electrical, and plumbing work to ensure efficient layout, quality installation and timely delivery of materials and equipment.

Sandeen has more than 17 years of experience in the construction industry, spending 10 years as a project manager for a local general contractor where he managed a start-up office in Las Vegas, Nev., for the last two years.

A LEED® Accredited Professional, Sandeen has completed several sustainable building projects. Sandeen has extensive experience in construction management and scheduling.

Sandeen has also served as a project manager and owners representative at 3M and as an architectural project representative at Ellerbe Becket Construction Services.

Sandeen's primary responsibilities will be in support of the Minnesota regional office, adding additional support to the other A&P offices in Colorado, Arizona, Texas and North Carolina.

Adolfson & Peterson Construction was formed in 1946 and now operates nationally with offices in Minnesota, Texas, Colorado, Arizona, Minnesota, California, and North Carolina. Adolfson & Peterson Construction provides construction management, design/build, general contracting, facilities maintenance, and facility asset management services to public and private clients in a wide variety of government, commercial, light industrial, and technology industries.
