Curtis Johnson, P.E. of American Engineering Testing, Inc. receives his Professional Engineering Licensure.

Saint Paul, Minnesota – American Engineering Testing, Inc. (AET), a leading engineering consulting firm, congratulates Curtis Johnson on earning his Professional Engineering (P.E.) Licensure. Curtis earned his bachelor's degree in Civil Engineering from the University of Minnesota – Twin Cities campus in 1999.

Curtis has been with AET since June 1997 as an Engineering Technician and now a Staff Engineer II. He recently made a transition from the Construction Services division to the Concrete group. Curtis' present responsibilities include technical direction of the concrete laboratory; preparation of concrete mix designs; report preparation; and developing and maintaining QA/QC procedures.

Curtis sat for the P.E. exam in April 2008 and recently received his licensure. Originally from Republic, Michigan; he currently resides in Saint Paul, Minnesota.

AET is an employee-owned corporation, providing professional services to public and private sector clients since 1971. AET's 300 engineers, geologists, scientists and certified technicians assist owners, developers, municipalities, consultants and contractors with their design, construction and restoration projects.

AET office/laboratories are located in the following cities: **Florida:** Bonita Springs (Fort Myers), Palatka - **Minnesota:** Chanhassen, Crosby, Duluth, International Falls, Mankato, Marshall, Rochester, Rogers, Saint Paul - **Wisconsin:** Eau Claire, Hudson, Menomonie, Schofield (Wausau) - **South Dakota:** Beresford (Sioux Falls), Pierre, Rapid City.
