### ATS&R Selected for Kaufert Lab Predesign Study

**Minneapolis, MN – March 3, 2010** – The University of Minnesota recently selected ATS&R Planners/Architects/Engineers to provide a predesign study and prepare construction documents for the replacement of exterior windows at the Kaufert Laboratory in St. Paul, Minnesota. Consisting of two buildings, Kaufert Laboratory is occupied by faculty and graduate students along with lab research areas.

ATS&R is working with representatives from the University to determine the scope of work and to provide recommendations and construction cost analysis and options for the replacement of the deteriorated windows. ATS&R was awarded this project based on the University's CPPM Best-Value (PIPS) Program.

ATS&R is an architecture and engineering firm specializing in educational facility design since 1944. The firm's services include architecture, educational facility planning, mechanical engineering, electrical engineering, interior design, technology, site development, field administration and total energy analysis/modeling.
