

## **Francis Becomes Professional Engineer**

Northern Technologies, Inc. (NTI) proudly announces that Tony Francis has passed Professional Engineering examination.

Tony obtained a bachelor degree in Civil Engineering from the North Dakota State University. He began working for NTI in our Fargo, ND office while attending school. Since 2005 Tony has managed environmental, geotechnical and construction materials testing projects in our Ramsey, MN office.

Northern Technologies, Inc. ([www.northerntechinc.com](http://www.northerntechinc.com)) is a company of engineers and technicians who provide geotechnical, materials and environmental engineering and testing services to government, commercial, institutional and industrial clients throughout the Upper Midwest. NTI serves clients from offices in Ramsey, Minnesota, and Fargo and Grand Forks, North Dakota.
