LKP B Engineers Increase LEED Accredited and Lighting Certified Staff

Saint Paul, Minnesota (April 29, 2009) – Kevin Lynn and Mike Morris recently received LEED accreditation from the Green Building Certification Institute. Lynn and Morris are mechanical project engineers with LKP B.

Electrical Engineer Randy Jacobs and electrical designer Scott Mason became Lighting Certified Professionals (LC) through the National Council on Qualifications for Lighting Professions. The LC designation is achieved through a stringent exam that tests the applicants' knowledge, understanding, and ability to apply lighting principles and techniques.

LKP B Engineers, Inc. (LKP B) is a Saint Paul-based mechanical and electrical engineering consulting firm. Established in 1969, LKP B has four decades of engineering experience and provides award-winning service for clients in the corporate, academic, entertainment, government, health care, industrial, recreational, religious, residential and retail sectors.
